12. Duty to disclose

On application for pension and insurance benefits from P+, the member must submit all the information, statements, certificates etc. which in P+'s view are of importance to P+'s ability to assess your case, including information about any employment in a job where special allowances have been made regarding your health status or social circumstances. Such health checks and certificates are paid by P+. P+ is relieved of its obligation to pay pension benefits as long as the required information is not provided.

13. Personal nature of the pension

13.1

The right to payment from P+ is personal and cannot be assigned, charged or made subject to any type of legal proceedings. This also applies in connection with withdrawal or transfer to another pension scheme and in relation to other persons entitled to pension under these Regulations, including spouses, cohabitants, children etc.

14. Basis of calculation

14.1

The Board determines in consultation with the chief actuary the bases of calculation used for the calculation of pension and insurance covers/payments, withdrawal compensations etc. and for the calculation of the value of P+'s pension commitments. The calculation bases can be either schemes entitled to bonus or market rate schemes possibly linked to investment funds.

14.2

The bases of calculation applying to schemes entitles to bonus contain assumptions about future interest rates, costs, risk of disability and death as well as frequency of marriages and childbirth - all taking age into consideration. The bases of calculation appear from the technical basis which is reported to the Danish Financial Supervisory Authority. P+'s Board can in consultation with the chief actuary decide to change the basis of calculation, including recalculate the pensions etc. if one or more of the following conditions are met:

1. The biometric assumptions etc. of the basis of calculation are not prudent compared to the reported basis of provisions
2. The basically assumed rate of cost is lower than the average of the rate of cost of life insurance companies and pensions funds for the past three calendar years from a given time.
3. The basic interest rate exceeds the 10-year, 20-year or 30-year discount rate.
4. P+'s actual post-tax return has been below the basic interest rate over a three-year period.
5. Amendments to legislation entail that essential basic assumptions fail.

This may imply that pension and insurance covers are reduced or discontinued. This also applies to covers in payment.

15. Bonus

15.1

For schemes entitled to bonus P+ calculates and distributes bonus according to P+ Bonus regulations in force at any time. The Bonus regulations, which appear from the website, are laid down by P+'s Board and can be amended by the Board with binding effect on the individual member.
